Subject: Groundwater Monitoring

Mike,

As we discussed in the conference call yesterday I have attached the groundwater monitoring section (Section E) of the RCRA decision guide to this e-mail. It is in WordPerfect 6.1 format. Please e-mail or call me (217.524.3265) if you have any problems opening the attached document.

Any parts of Section E which Solutia proposes to omit, should be indicated on the document and submitted (electronically if you wish) to the Groundwater Assistance Unit in the Permit Section for review.

The groundwater contact for this Project is:

Terri Blake Myers, LPG
